

HEADS UP . . .

You know how it is for us beautinistas, busy during the day and meaning to phone for a hair or beauty appointment, but only thinking of it when relaxing at home after work. Then it's too late to book and the cycle begins again the next day, and the next.

Well, now you can book hair and beauty appointments online at Sean Taaffe Hair & Beauty website, www.seantaaffe.com.

Clients can book their favourite stylist or technician, without ever phoning the salon. Log onto the website, click on the 'Book Now' tab, and select the

service required, choosing a member of staff, date and time. The client then receives confirmation of the booking.

Of course, the busy salon will continue to take bookings in the conventional ways.

*Drop by the salon
